

**Remarks**

Claims 29, 34, and 49 were pending for examination. Claim 29 has been amended to clarify the claim language. Claim 34 has been canceled. Claim 49 has been amended to make it an independent claim. New claim 50 has been added. The list of non-NMDA antagonists in claim 50 is found in the specification in the sentence bridging pages 16-17. No new matter has been added.

**Rejections Under 35 U.S.C. § 112, First Paragraph**

The Examiner rejected claim 29 under 35 U.S.C. § 112, first paragraph, as lacking an adequate written description in the specification. Applicant respectfully requests reconsideration and withdrawal of the rejection.

Claim 29 has been amended to recite specifically “non-NMDA channel antagonists”. New claim 51 recites specific compounds provided in the specification. Applicant asserts that the specification provides a recitation of a representative number of non-NMDA channel antagonists that is sufficient, in view of the knowledge of the skilled artisan of the recognized class of non-NMDA channel antagonists, to provide an adequate written description of the claims as amended.

Accordingly, Applicant’s specification provides an adequate written description of claims 29 and 51 as presently presented. Reconsideration and withdrawal of the rejection under 35 U.S.C. § 112, first paragraph therefore is requested.

Applicant respectfully requests reconsideration of the claims in view of the amendments and reasoned statements made above.
